Peterson Construction
1920 Highland Ave
Twin 83301

Dear Jeremy,

I wanted to thank you and your team for making my car barn a reality. First of all you talked me out of doing the barn in metal and what is more amazing is that you made it look better than I thought was ever possible for the same price as the normal ugly metal equipment shed. You came in under budget, on time, and a finished look that complimented our 3 other garages.

Your employees were always on time, pleasant, and kept the work area clean which is rare these days. If I had a question they were always willing to listen and answer, or if they didn't know they got back to me. One thing I also appreciate is that they took that extra step to clean up the area before they went home.

I was worried at first you being friends with Matt and you being so young. However, you were mature and on top of ever single step. I frankly was blown away at how well you bid the job and continued to check with me to make sure I was happy. I have worked with a lot of contractors, and you are at the top of my list. I also watched the work you have done on a competitor's dealership, and it was done very well and on time.

I look forward to working with you on future projects.

Sincerely,

Gregg Middlekauff
